Quiet Excellence in Natural Stone

Established in 2007, we are a high quality natural stone company guided by a simple belief — Excellence & Success. We work as a trusted stone supplier for clients who value consistency, precision, and long-term reliability.

With a strong commitment to trust, sincerity, transparency, and consistent service, we partner with stone distributors, developers, and project teams worldwide, sourcing and supplying high quality Indian granite and marble to clients across India and five continents.

Heritage & Values

Founded by Mr. Manik Poddar, the company is built on a family legacy of over 75+ years in trading and business. This foundation has shaped a culture rooted in discipline, integrity, and long-term thinking.

These values define how we work — with sincerity in communication, reliability in execution, and a commitment to delivering consistent quality across every engagement.

Pan India Network

100+ Associate Factories. One Consistent Standard.

Our Madurai operation is supported by a carefully selected network of 100+ trusted associate factories across India. This network enables us to access diverse stone varieties, processing capabilities, finishes and sizes while maintaining a consistent approach to quality and inspection.

ONE NETWORK. FIVE KEY STAGES.

01. ORDER RECEIVED

Every project begins with a clear understanding of your requirements, including material selection, dimensions, quantities, finishes, and delivery expectations — ensuring complete alignment from the very start.

02. PROCESSING

Selected materials are processed through our specialised associate network using advanced cutting, polishing, and finishing capabilities to achieve precise specifications and consistent quality.

03. APPROVAL & INSPECTION

Each lot is first reviewed and approved based on material quality, dimensions, and selection. Once approved, the material is processed as per the required specifications, including finish, size, and other quality parameters, followed by detailed inspection before final dispatch.

04. CRATING, LOADING & LOGISTICS

Approved materials are securely crated using export-standard packing methods and carefully loaded, with logistics managed to ensure safe, efficient, and timely movement.

05. SHIPPING & DOCUMENTATION

From export documentation to secure port loading, every detail is coordinated to ensure the material is properly prepared and handed over for onward shipment.

Platinum Stones offers premium granite slabs sourced across the Indian subcontinent, available in **Slabs, Cutter Slabs, and Cut-to-Size** solutions. With a wide range of finishes including **Polished, Flamed, Honed, Leather, Antique, LaPotra, and Brushed**, we provide versatile options tailored to diverse architectural and design requirements.

OUR JOURNEY WITH GLOBAL STONE FAIRS

A PRESENCE BUILT OVER YEARS

ISTANBUL NATURAL STONE FAIR — 2009

Our journey in international stone exhibitions began in 2009 with our participation in the Istanbul Natural Stone Fair. It marked an important step in expanding our international presence, connecting with stone professionals and understanding opportunities across global markets.

MARBLE İZMİR FAIR 2010 → 2018

Over nearly a decade of participation, MARBLE İzmir became an important platform for showcasing our materials and strengthening connections across the international natural stone industry.

MARMOMAC — 2012 TO PRESENT

Since 2012, Platinum Stones has consistently showcased Indian granite and marble at Marmomac—the premier global platform for natural stone. Over the years, this iconic exhibition has helped us connect with international industry leaders, adapt to market trends, and build lasting global partnerships.

MORE THAN AN EXHIBITION

A JOURNEY OF CONNECTIONS

2012 → Present

13+ Years of Marmomac Participation

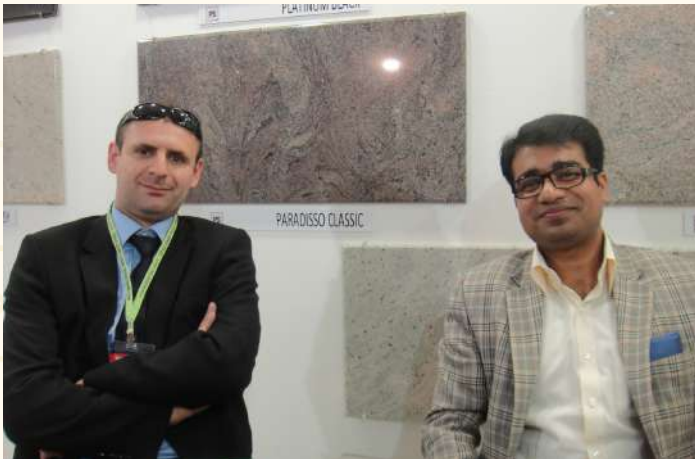

Connecting Indian Stone with the Global Market

BUILDEXPO — 2012

In 2012, our participation in BuildExpo further strengthened our engagement with the international construction and building materials industry. The platform provided opportunities to showcase our capabilities, connect with industry professionals and develop valuable business relationships.

People & Culture

We believe that lasting excellence is built by investing in the people behind it. We foster a culture grounded in accountability, collaboration, mutual respect, and continuous learning — empowering our team to take ownership and perform with purpose.

By nurturing talent, recognising potential, and creating opportunities for long-term growth, we build a skilled and committed workforce that grows alongside our organisation. This shared growth strengthens the consistency, reliability, and excellence that define Platinum Stones at every level.
